Symphony of Perception Vol 1, 2019 - 2020

multimedia installation/experience

30 mis

This online multimedia installation consists of 3 elements:

- Projection of footage
- Soundtrack on headphones
- And you - The most important one

You're invited to choose or change the piece of music in relation to a video clip at any time. The conscious choice of tune, when faced with a visual and the contemplation of how the two work together, is really key.

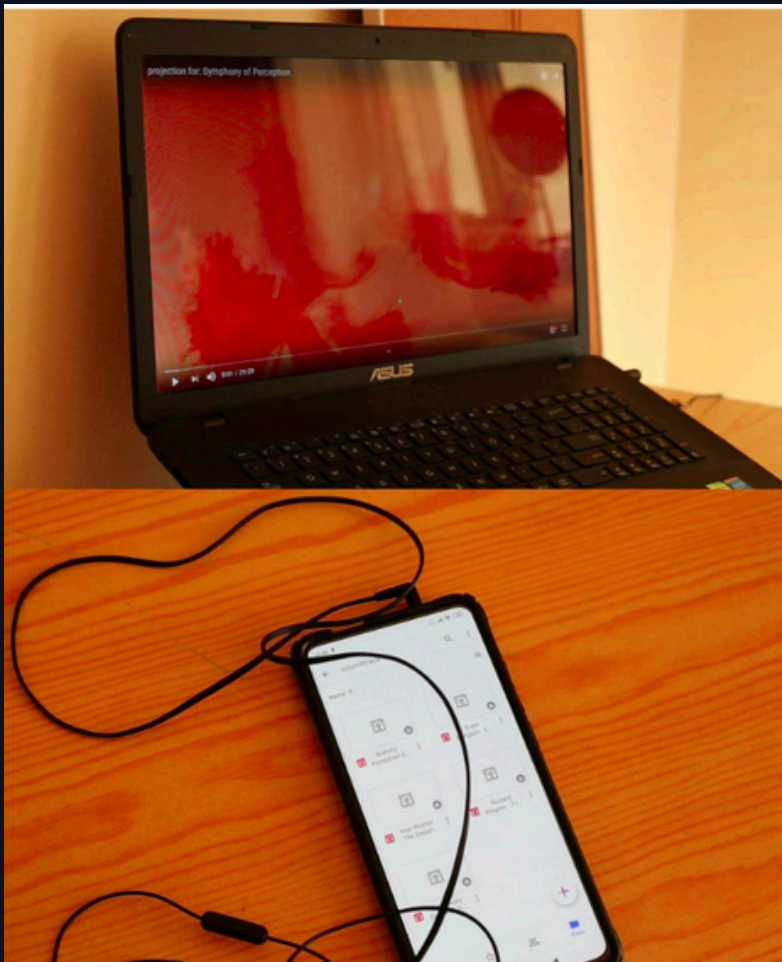

How to experience it now?

STEP 1. You need a device (phone, tablet, etc.) to play music on with headphones.

You can download the tracks or listen to them from the folder [here](#)

STEP 2. You need a separate device to open Youtube on (laptop, desktop computer or smart TV). You can type 'symphony of perception' on Youtube or simply [click here](#).

STEP 3. Play around with a soundtrack. Pay attention. Notice. Enjoy.

"Everything can be taken from a man but one thing: the last of the human freedoms — to choose one's attitude in any given set of circumstances."

Viktor Frankl

I welcome your feedback!
