

A wide-angle shot of a large audience seated in a theater, facing a large projection screen. The theater's walls are decorated with a geometric pattern of blue and grey panels. The ceiling is dark with several circular lights. The audience is seen from behind, filling the lower half of the frame. The screen displays the title 'Symphony of Perception vol 2' in a cursive font, with the words 'audiovisual interactive experience' to its right.

# *Symphony of Perception vol 2*

experience

Symphony of Perception vol 2 is an audiovisual interactive experience by Creatress Michalina Marta Cap.

It expands on the concept from vol 1 which is:

*You are the curator of your own reality.*

Experience for yourself:

# Symphony of Perception vol 2

will be a result of active collaboration between living artists and arts facilitators.

30-minute original soundtracks by Berlin-based composers and musicians will be playing as channels in silent disco headphones.

The moving image clips provided by me will fill out the screen of a cinema.

And finally, most importantly, people sitting next to each other, watching the same images, will unavoidably have unique experiences.

Leading us to grasp that:

*You are the only experiaencer of own reality.*

I'm currently welcoming on board all the help I can get.

Especially:

- people who create music (I'm envisioning one jazz, one classical, and one electronic soundtrack)
- people who produce events from logistics to marketing to possible crowd control(..?)
- a cinema/theatre with a screen
- silent disco equipment rental company who are happy to build its brand awareness in the cultural sector

*Who am I?*

Hi! I'm Michalina Marta Cap and I'm a Creatress whose art is an exploration of living on Earth as a human female in the 21st century.
